PLUGIN DESCRIPTION

Shortly after integrating a Authorize.Net payment gateway with Contact Form 7, ZealousWeb Technologies has now come up with a elavon payment gateway, which can also be successfully integrated with Contact Form 7.

Considering the fact that Contact Form 7 is a highly common and authentic WordPress Plugin, the new addon "Contact Form 7 - Elavon Converge" created by ZealousWeb Technologies, can prove to be extremely helpful for users when it comes to receiving payments.

There is no denying the fact that, users of WordPress websites confront a lot of payment related issues on a day-to-day basis, and in that case Contact Form 7 - Elavon Converge can bring a great relief to them.

With the assistance of Contact Form 7 - Elavon Converge, you can receive credit card payments directly from your customers, thus preventing them from landing up on a third party payment page.

Contact Form 7 - Elavon Converge has the potential to receive payments safely from any Contact Form 7 form, which is hosted on any page or post for that matter. Once the contact form is submitted by the users, the payment checkout form is then displayed before them. The Elavon payment checkout form is used for quick and secure transactions. This simply indicates that Contact Form 7 - Elavon Converge can really help your websites to generate the revenue quickly.

What you need to understand about this plugin is it doesn't rely on the action handler 'on_set_ok', which resides on the 'Additional Settings' tab of the CF7. Instead of that users can find a new tab 'Elavon' wherein they can configure all the crucial fields needed to configure this plugin. For using this plugin, it is important for you to activate your Contact Form 7.

PLUGIN KEY FEATURES

- It gives you the potential to create multiple payment forms using Contact Form 7.
- In addition to that, it also supports multiple forms on a single post or page.
- When it comes to receiving values from input fields such as drop-down menu, textbox, hidden field, radio buttons, etc., Contact Form 7 - Elavon Converge is really good at it.
- The value for parameters like item company, amount, country, state, city and zip code is always accepted by it from the frontend.
- When it comes to identifying whether the plugin is functioning properly or not, users can use Test API Mode.
- The payment data associated to Contact Form 7 can be easily saved into the database.
- Elavon payment response details stored at admin side.
- Its quite easy to export Contact Form 7 payment data to PDF and CSV.
- All filters and search facility available at admin side.
- With its assistance admin can easily edit or delete Contact Form 7 payment data.
- Once a Elavon payment is made successfully by the customers, the plugin sends individual emails to both the customer and the admin.
- You can personalize email content for this plugin, Email(1) of Contact Form 7 is send to payee after successful transaction and Email(2) is send to admin after successful or unsuccessful transaction.
- [elavon] tag added to email content gets replaced by elavon payment response in email.
- It allows you to set payment success return url and custom message.

INSTALLATION STEPS

To install this Plugin manually:

Step 1. Download your Plugin zip to your desktop.

Step 2. If downloaded as a zip archive, extract the Plugin folder to your desktop.

Step 3. With your FTP program, upload the Plugin folder to the wp-content/plugins folder in your WordPress directory online.

Step 4. Go to Plugins screen and find the newly uploaded Plugin in the list.

Step 5. Click Activate Plugin to activate it.

To add this Plugin using the built-in plugin installer:

Step 1. Go to Plugins > Add New.

Step 2. Under Search, type in the name of the "Contact Form 7 - Elavon Converge " Plugin in the search form or click a tag link below the search form.

Step 3. Click Install Now to install this Plugin.

Step 4. A popup window will ask you to confirm your wish to install the Plugin.

Step 5. Click Proceed to continue with the installation if you have entered FTP login credential information. The resulting installation screen will list the installation as successful or note any problems during the install.

Step 6. If successful, click Activate Plugin to activate it.

In case you face any problems while installing, feel free to Contact Us at opensource@zealousweb.com
